TSUNAMI FLOWGRAM
Script Outline/Information Sheet
Developed by Isadel Eddy, March 2009

You must address four main topics in your Flowgram, how tsunami warning systems work, how tsunamis are formed, the history of previous tsunami disasters, and the human impact of tsunamis. You are encouraged to intersperse these as much as you see fit and to include other topics as well. Try to be creative and make your Flowgram interesting and **cite your sources**!

Your Roles:

Engineer _____   Historian _____

Physicist _____   Reporter _____

You should be filling out this sheet if you chose to use Flowgram to create your audio-visual. For each webpage/photo/map/etc that you will talk about on your Flowgram you must fill out the following information. If you make a power point presentation and talk about it then you must fill out the information for each informative slide.

Main Topic Covered _____

Picture/Website Source _____
